Career Objective

To pursue a challenging and growth-oriented career in the field of **technical and engineering services**, where I can apply my knowledge of computer engineering, fiber operations, construction supervision, and electrical project execution. I aim to contribute effectively to organizational success through my technical expertise, problem-solving skills, and commitment to professional excellence, while continuously upgrading my knowledge and skills in emerging technologies.

Work Experience

AirTel Fiber Operator

2021

Installed and maintained fiber optic connections, assisted customers with troubleshooting, and supported broadband expansion operations.

Supervisor, Construction Company

2022

Supervised construction teams, ensured site safety, coordinated with engineers and suppliers, and managed workflow for project completion.

Techno Electrical Engineering

2023 - Current

Working on electrical engineering projects, handling wiring and installations, monitoring load management, and ensuring adherence to quality standards.
Additionally responsible for **Burnt Meter Management**, including reporting and analysis of burnt meters.
Performing **data analysis** using **Python and AI tools** to generate insights, optimize processes, and improve operational efficiency.

Education

2016 - 2017

Completed 10th class from Muwest High School through JKBOSE (Jammu & Kashmir Board of School Education)

Royal Polytechnic College

2018 - 2021

Completed Polytechnic Diploma in Computer Engineering through JKBOTE (Jammu & Kashmir Board of Technical Education)

Lovely Professional University

2025 - Present

Currently pursuing **BCA (Bachelor of Computer Applications Distance Mode)**, 2nd Year
